Career Objective:

A passionate software engineer, seeking to use programming and coding skills to deliver quality solutions in a variety of roles. I am a career changer from the education sector and have 2 degrees in psychology. Recently, I completed 2 programming boot camp courses with Code First Girls to develop the skills needed to succeed in a variety of tech based jobs. I am a self starter and eager learner looking for a company that will grow with me and offer training and support in a friendly work environment. My previous experience allowed me to develop my collaborative communication, creative problem solving, and adaptive decision making skills.

Programming/Coding Languages:

- Python - React Native - JavaScript - JSX - Ruby - HTML - CSS
